THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON 7, ALBERTA

SEPTEMBER 18, 1969

Dr. Preshing

DIRECTOR OF INSTITUTIONAL RESEARCH NAMED

A native Edmontonian has been appointed Director of Institutional Research and Planning at The University of Alberta.

WILLIAM A. PRESHING, recently Associate Director of Management Studies at the Banff Centre for Continuing Education, assumed his duties on September 2.

The Institutional Research and Planning Office will incorporate three units now involved in institutional research-planning: the Academic Development Office, Institutional Research and Systems, and the Planning Division of the Campus Development Office. Approval was given to the new office at the August 22 meeting of the Board of Governors.

Dr. Preshing does not anticipate any internal re-organization until a successor to WALTER H. WORTH, Vice-President for Campus Planning and Development, is named.

The office will be involved in studies to provide data for purposes of long-range

SPECIAL CONVOCATION

A Special Convocation for the installation of MAX WYMAN as President of the University will be held Monday, October 6, at 8:30 p.m. in the Northern Alberta Jubilee Auditorium. An honorary LL.D. will be awarded to former Dean of Medicine, JOHN W. SCOTT.

Faculty, students, alumni, and the public are invited, and tickets may be obtained from the Registrar's Office.

planning at the University. Several projects are now underway in the new office, most of them carried over from the three previous offices. A cost study probing the relative costs of various faculties has just been completed. The Space Utilization Study, which has been going on for nearly a year, is slated for completion in November. On-going studies include the Space Management survey, a study of programming for building requirements, several Campus Planning projects, and a divided-year study for the General Faculty Council.

Dr. Preshing received his Bachelor of Education and Bachelor of Arts degrees from The University of Alberta in 1952 and 1957, respectively. He earned his Master of Business Administration from the University of Western Ontario, and, in 1965, his Doctor of Philosophy in Marketing from the University of Illinois. He was formerly an Associate Professor of Commerce at both The University of Alberta and The University of Calgary and has published two books and more than 100 academic articles on marketing and management.

DR. WORTH STILL AT HIS DESK

No replacement has yet been named for WALTER H. WORTH, who resigned effective August 31 to head the Government of Alberta's new Alberta Commission on Educational Planning.

MAX WYMAN, President of the University, has invited Dr. Worth to remain on a part-time basis, as Acting Vice-President for Campus Planning and Development, *pro tempore*, until a new appointment is made. During this period Dr. Worth will continue as Chairman of the Campus Development Committee, as a member of the Board Building Committee, and will perform related duties.

WOODWARD'S MAKES DONATION

On September 12, MAX WYMAN, President of the University, accepted a cheque for \$15,000 from T. K. CAMPBELL, Vice-President of the Alberta Operations of Woodward's Stores, Limited. The presentation was the initial portion of the company's five-year pledge of \$75,000 to the Three Alberta Universities Capital Fund Campaign.

The gift has been portioned among the three universities, with eight per cent to go to The University of Lethbridge, 60 per cent of the balance to The University of Alberta, and 40 per cent to The University of Calgary.

THE FACULTY OF MEDICINE NEEDS BODIES

The Faculty of Medicine at The University of Alberta is in serious need of bodies for medical instruction and research.

T. S. LEESON, Chairman of the Department of Anatomy, says that "unless we can obtain at least 30 bodies between now and May, we may face serious difficulties for next year. Fewer than that, and we may have to lower the standard of our medical training or, at worst, place still further restrictions on enrolments in Medicine." Since mid-July no bodies have been received.

The need for bodies is a continuing one. At present a minimum of 35 to 40 cadavers are required each year. In 1971, with the expansion of facilities that will result from the opening of the Basic Medical Sciences Building and the expected increase of admissions, at least 60 bodies will be needed.

Although there is a legal provision in the Universities Act that unclaimed bodies (bodies which ordinarily would be buried at public expense) be turned over to the University, the supply falls short of the Department's needs. Moreover, with the opening of the Faculty of Medicine at The University of Calgary, the Department no longer collects bodies south of Red Deer. In the past, many more bodies have come from the south of the province than from the Edmonton area.

Thus, the University is forced to rely upon donations as the major source of anatomical specimens, and it is encouraging people to bequeath their bodies for medical study after death. This practice does not contravene any religious beliefs, Dr. Leeson noted, and, besides serving a very important cause, it means no funeral expenses.

He suggested that persons wishing to leave their bodies to the University call the Department of Anatomy for further information.

MARINE BIOLOGY FACILITY PLANNED

Five Western Canadian universities are on their way to creation of the first major teaching and research facility for marine biology on Canada's West Coast. Recent actions by the British Columbia and federal governments have opened the way for the establishment of the facility, which will be a significant addition to Canada's contribution to a field of science that is of growing importance to a polluted and food-short world. Much of the research and teaching carried out at the new station will be related to the problems of coastal pollution and to better utilization of the resources of the sea.

Involved in the project are The University of Alberta, the University of British Columbia, The University of Calgary, Simon Fraser University, and the University of Victoria. Research and teaching operations will be based at Bamfield on the west coast of Vancouver Island, on the site of a former cable station owned by a crown corporation. The University of Victoria will purchase the site and hold it in trust for the five universities.

The only existing marine biological stations in Canada are located on the east coast, although McGill University operates a small laboratory in Barbados. The nearest open-coast marine station on the West Coast is in Oregon.

Bamfield, which has one of the richest populations of marine plants and animals in Canada, is regarded as the best available site for studies in marine biology. A survey of these populations was carried out this summer by an inter-university group co-ordinated by LOUIS DRUEHL of the Department of Biological Sciences at Simon Fraser University. The survey was conducted by faculty members and graduate students from the University of British Columbia, Simon Fraser University, the University of Victoria, and Western Washington State College. They were assisted by scientists from the Fisheries Research Board, the Geological Survey of Canada, and the British Columbia Fish and Wildlife Branch.

The new facility will be of particular value to zoology students at The University of Alberta. Senior students will no longer be forced to travel to the United States to observe 95 per cent of the major groups of animals, which are found only in the ocean.

The steering committee for the facility, representing the five universities, includes JOHN C. HOLMES, Associate Professor of Zoology, and JOHN R. NURSALL, Professor and Chairman of Zoology at The University of

Alberta; R. F. SCAGEL and N. J. WILIMOVSKY of the University of British Columbia; N. E. HENDERSON and R. C. B. HARTLAND-ROWE of The University of Calgary; W. G. FIELDS and D. J. MCLAURIN of the University of Victoria; and D. L. DRUEHL and G. H. GREEN of Simon Fraser University.

GRADUATE STUDENTS ASSOCIATION MEETING

At its meeting on September 9, the Graduate Students' Association considered the following items:

GRADUATE STUDENTS' NIGHT AT THE FACULTY CLUB

The GSA will be holding a Graduate Students' Night in the Saskatchewan Room of the Faculty Club every Tuesday from 7 p.m. to 11:30 p.m., commencing Tuesday, September 16. This will continue on a trial basis until the end of November. All faculty members are invited to come and meet students in an informal atmosphere.

GUIDELINES TO EXTERNAL COMMITTEE REPRESENTATIVES

The GSA Council adopted as council policy six obligations of external committee representatives to the GSA Council. These confirm the representatives' duty of speaking as individuals as well as for the council.

CHARTER FLIGHT TO LONDON

The GSA is organizing a charter flight for graduate students to London from May 11 to June 8, 1970. Information will soon be available from the GSA office, local 5329.

CONVERSION OF PEMBINA HALL TO A CO-ED RESIDENCE

The GSA Council decided to request that the Council on Student Affairs discuss the conversion of Pembina Hall to a co-educational residence. This would be desirable since Athabasca Hall always has a long waiting list of foreign students, while Pembina Hall often has difficulty finding enough senior students to fill it.

PEOPLE

ERNEST REINHOLD, Chairman of Germanic Languages, has been invited to attend, as a former Humboldt Foundation Fellow, the official bicentenary celebrations of the birth of Alexander von Humboldt at Bonn, Germany, September 13 to 17. Following the ceremony, Dr. Reinhold will take part in a symposium on "German Literature by Writers in Exile from the Third Reich" in Stockholm, from September 18 to 21. Dr. Reinhold has been awarded a travel grant from the Canada Council to attend this symposium.

LAWRENCE F. L. CLEGG, Chairman of the

Department of Food Science, has been elected a Fellow of the Institute of Food Science and Technology. Dr. Clegg has just returned from a year's sabbatical leave in England, where he visited departments of Food Science in British universities.

HARRY WOHLFARTH, Assistant Professor in Extension, presented a paper on "Psycho-Physiology of the High Frequency Color-Kinetic Phenomenon" at the Roman Academy of Arts and Sciences in Rome during the last part of August.

Mr. Wohlfarth will be listed in the 1970 International Dictionary of Art as the innovator of high frequency color-kinetic expressionism as a contemporary art form.

E. E. DANIEL, Professor and Chairman of Pharmacology, presented two papers, "The Electrical Activity of the Stomach and Upper Intestine" and "The Possible Role of Close Contacts (Nexuses) in the Propagation of Control Electrical Activity in the Stomach and Small Intestine," at the Second International Symposium on Gastrointestinal Motility held in Rome from September 10 to 14.

YAR SLAVUTYCH, Associate Professor of Slavonic Languages, delivered two public lectures at the Universities of Melbourne and Monash, on the invitation of the Ukrainian Student Club. Dr. Slavutych's topic was "Soviet Literature Policy." Dr. Slavutych also presented two papers on Soviet language policy and Ukrainian teaching aids in Canada at the Learned Societies Meetings at York University in June, 1969.

JOSEPH J. ROYCE, Director of the Centre for Advanced Study in Theoretical Psychology, has been elected President of the Division of Philosophical Psychology of the American Psychological Association for 1969-70. The APA, the largest society of psychologists in the world, has a membership of approximately 30,000.

G. SCHAARSCHMIDT, Chairman of Slavonic Languages and Literatures, presented two papers on linguistic theory and Russian syntax at the Learned Societies Meetings at York University in June. Other members of the Department who spoke at the meetings included M. SZYCZAK, Visiting Professor, who spoke on Slavic morphology and linguistic geography, and OLEH ZUJEWSKYJ, Assistant Professor, whose topic was translation theory.

OREST STARCHUK, Professor of Slavonic Languages, has been awarded a Canada Council grant for research in Slavonic Languages spoken in the Province of Alberta.

GERARD V. LA FOREST, Dean of Law, addressed the Plenary Session of the Canadian Bar Association in Ottawa on

September 1 on taxing and spending power. On September 2, Dr. La Forest addressed the resources section of the organization on the current constitutional position respecting off-shore minerals.

At the Annual Meeting of the Canadian Society of Agricultural Engineering, two members of the Department of Agricultural Engineering assumed positions on the CSAE Council. E. RAPP, Professor of Agricultural Engineering, became Regional Director for Alberta, and K. W. DOMIER, Chairman, became Regional Vice-President.

BOOKS

Reason and Religion, a book by JOHN KING-FARLOW, Visiting Professor in Philosophy, has been published in London by the house of Darton, Longman, and Todd.

VISITORS

F. R. MORRAL, Director of the Cobalt Information Center at Battelle Memorial Institute in Columbus, Ohio, was the guest of the Department of Mining and Metallurgy on September 16. In addition to touring the facilities of the department and conferring with faculty members, he conducted a seminar "Engineering Uses of Cobalt and Cobalt Alloys" for graduate students and staff.

Staff appointments

ACADEMIC APPOINTMENTS

ADMINISTRATIVE DATA PROCESSING

G. FESTER, Administrative Officer II, as from July 1
W. KAZEMIR, Administrative Officer II, as from July 1
B. K. LATHAM, Administrative Officer I, as from July 1
J. E. MCKEE, Administrative Officer II, as from July 1
G. A. MULHALL, Administrative Officer IV, as from August 19
J. A. OGLE, Administrative Officer III, as from July 1

ART

W. JUNGKIND, Associate Professor, as from June 1
G. PEACOCK, Lecturer, as from August 1

ANATOMY

N. OSSENBERG, Assistant Professor, as from September 1

BACTERIOLOGY

C. OHE, Assistant Professor, as from October

BOTANY

P. N. D. SEYMOUR, Professional Officer I, as from July 1

CAMPUS DEVELOPMENT

B. O. DICK, Administrative Officer II, as from August 1
E. W. MCCONNELL, Administrative Officer II, as from July 3
A. MICHALCHUK, Administrative Officer I, as from August 15

DENTISTRY

A. J. C. WOOLLER, Assistant Professor, as from September 1

EDUCATIONAL FOUNDATIONS

D. G. WANGLER, Assistant Professor, as from July 1

EDUCATIONAL PSYCHOLOGY

J. B. BIGGS, Associate Professor, as from January 1, 1970

ENGLISH PROGRAM FOR FOREIGN STUDENTS

P. F. MCNAMER, Lecturer, as from September 1

GEOGRAPHY

A. C. B. ALLEN, Assistant Professor, as from December 1, 1969.

GEOLOGY

E. A. BABCOCK, Assistant Professor, as from August 1
J. S. BELL, Assistant Professor, as from August 1

INDUSTRIAL AND VOCATIONAL EDUCATION

D. R. YOUNG, Associate Professor, as from July 1

INSTITUTIONAL RESEARCH AND PLANNING

W. A. PRESHING, Director, as from September 1

LIBRARY

N. BAIRD, Librarian, Grade I, as from September 15
J. A. BRENNAN, Librarian, Grade I, as from September 1
O. B. MURRAY, JR., Co-ordinator of Collection Development, as from September 15
N. C. PAPPAS, Librarian, Grade III, as from August 1
M. SALMOND, Librarian, Grade I, as from September 1
A. R. SAWA, Librarian, Grade I, as from October 1
J. VANDE BRINK, Librarian, Grade I, as from September 1

MEDICINE

C. A. E. BASUALDO, Assistant Professor, as from July 1
J. B. DOSSETOR, Professor, as from July 1

MINING AND METALLURGY

M. L. WAYMAN, Assistant Professor, as from August 1

MUSIC

L. V. FISHER, Associate Professor, as from June 1

B. R. TURGEON, Assistant Professor, as from July 1

NURSING

D. COLLEY, Lecturer, as from July 1
P. KOT, Assistant Professor, as from September 1
F. MCADOO, Assistant Professor, as from August 1
S. A. MACDONALD, Lecturer, as from July 1
P. WALLACE, Lecturer, as from July 1

CHEMICAL AND PETROLEUM ENGINEERING

D. L. FLOCK, Associate Dean and Professor, as from August 1

PHARMACOLOGY

H. P. BAER, Assistant Professor, as from November 1

PHILOSOPHY

I. F. MCGILP, Lecturer, as from July 1

PHYSICAL EDUCATION

C. MOSER, Administrative Officer I, as from July 1
S. E. NEILL, Lecturer, as from July 1

PHYSIOLOGY

S. G. PICKERING, Associate Professor, as from August 1
K. J. HUTCHISON, Associate Professor, as from November 1

POLITICAL SCIENCE

H. W. CUMMINS, Assistant Professor, as from July 1
M. E. MOTE, Assistant Professor, as from July 1

PROVINCIAL LABORATORY

M. C. FINLAYSON, Senior Scientist, as from March 1, 1970

PSYCHOLOGY

C. H. BECK, Assistant Professor, as from July 1
R. C. HOSTETTER, Assistant Professor, as from July 1
L. M. POTASH, Assistant Professor, as from July 1

PSYCHOLOGY AND EDUCATIONAL ADMINISTRATION

D. KUIKEN, Assistant Professor, as from August 1

REGISTRAR'S OFFICE

J. H. BATT, Administrative Officer II, as from June 16

SECONDARY EDUCATION

J. J. LAFOLLETTE, Assistant Professor, as from July 1

SLAVONIC LANGUAGES

R. M. HANKIN, Assistant Professor, as from July 1

SOCIOLOGY/EDUCATIONAL ADMINISTRATION

E. W. GUERNSEY, Assistant Professor, as from July 16

SPEECH PATHOLOGY AND AUDIOLOGY

K. H. GOUGH, Associate Professor and Head,
as from July 1

PROMOTIONS

The following names have been added to the list of promotions on the academic staff published in FOLIO, August 28.

BUSINESS ADMINISTRATION

J. D. MUIR, Associate Professor

CHEMICAL AND PETROLEUM ENGINEERING

F. A. SEYER, Associate Professor

H. R. RAMSTEAD, Administrative Officer II

PHYSICS

G. EARLE, Professional Officer II

SCIENCE

W. E. RANDALL, Professional Officer II

RESIGNATIONS

CAMPUS DEVELOPMENT OFFICE

J. F. HELME, Planning Officer, effective August 31

COMMUNITY MEDICINE

E. H. HAYNES, Assistant Professor, effective August 31

ELEMENTARY EDUCATION

J. T. MCBURNEY, Assistant Professor, effective August 31

GENERAL LINGUISTICS

G. S. WALDO, Associate Professor, effective August 31

MEDICINE

F. B. RODMAN, Assistant Clinical Professor, as from August 31

ERRATA

It was incorrectly announced in FOLIO for September 4 that A. B. BHATIA, Professor of Physics, had resigned. Dr. Bhatia has in fact resigned as Director of the Theoretical Physics Institute, but remains on the campus as Professor of Physics.

COMING EVENTS

PHILOSOPHY CLUB LECTURE

On Tuesday, September 23, LESLIE C. GREEN, University Professor, will address the Philosophy Club on "Morality and the Law." Visitors are welcome to the meeting at 3:30 p.m. in Room 13-15 of the Henry Marshall Tory Building.

INTERNATIONAL GEOLOGICAL FIELD TRIP

The Department of Extension will sponsor the 1970 International Geological Field Trip to Norway, England, and Wales. Areas of interest to petrologists, stratigraphers, paleontologists, and sedimentologists in both academic and industrial fields will be examined.

ROGER MORTON, Associate Professor of Geology and GORDON D. WILLIAMS, Associate Professor and Acting Chairman of Geology, will act as tour leaders. They will be assisted by Norwegian and British geologists.

The tour will leave Edmonton May 10, 1970 for Norway via London. The fee of \$750 will include air fare from Edmonton to London and return; reserved hotel accommodations; bed and breakfast each night from May 10 to May 30; bus transportation to sites; and tuition.

Detailed itineraries and further information may be obtained from the Department of Extension before September 30.

NOTICES

CHRISTMAS CHARTER TO HAWAII

A Golden Bear Christmas Charter to Hawaii, open to all University staff members, is being organized. The \$379 price includes direct flights to and from Honolulu, accommodations with kitchenettes, two island cruises, transfers to and from the hotel, and a get-acquainted party. The tour will run from December 20 to January 3. Family and group rates are available. Reservations and further information may be obtained from local 3616.

UNIVERSITY SYMPHONY ORCHESTRA

The University Symphony Orchestra has vacancies for new members in all sections. Membership is not restricted to students, and faculty members would be particularly welcome. The orchestra will give two major concerts this year: the Fall concert on November 23 and 24, and the Spring concert on March 9 and 10. It will also join with the Male Chorus in a Christmas performance in December. Conductor Ted Kardash is a student in the Department of Music and has studied conducting in Europe.

Rehearsals are Mondays from 7:30 to 10 p.m. in the Students' Union Theatre. Interested persons are invited to come and play.

Further information may be obtained from the Secretary, SUSAN PLANT, 433-1901.

GYMNASTICS CLASSES

The Faculty of Physical Education will offer a Saturday morning gymnastic program for children, ages 6 to 12, of staff members. Further information and registration forms may be obtained from G. M. ELLIOTT, local 3366. The program will run for ten Saturdays, commencing October 4.

PERSONAL NOTICES

Staff members may forward notices to reach the Editor by 9 a.m. the Friday prior to publication. They must be typed, and not exceed 35 words including heading. Advertisements received will be published at the Editor's discretion.

FOR SALE—Four-room lakeshore cottage at Hastings Lake. Large stone fireplace. One acre of land on north shore. \$4,500. Local 3449, or 439-8354.

FOR RENT—Three-bedroom furnished house. Dishwasher, washer, drier. Near the campus. \$225 per month. Available January 1, 1970. Local 3267.

FOR RENT—Three-bedroom furnished duplex. Completely equipped. Carpets and drapes. Den. Near shopping and schools. Fenced back yard. Maintenance provided. Available now. \$200 per month. 439-3766 to 4 p.m.; 466-6728 or 466-9248 after 4 p.m.

FOR SALE—1965 MG-B sports car. Low mileage. Excellent condition. Best offer. 439-5275.
